July and make

#### Environmental landscape illustration

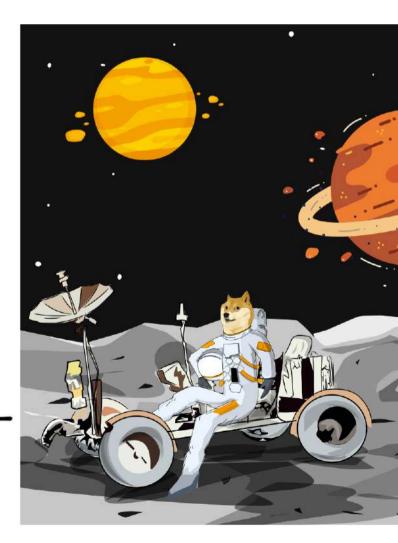

This background/building I made for 44 Gang banner story of 44GANG Project (called "train station London").

Style of drawings: Semi realistic

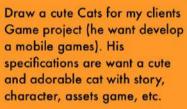

Software: ProCreate

Vector landscape

#### **Cute animals illustrations**

Style drawing: Flat and minimalist character

Display game from smartphone

#### **Coloring Characters**

**Full colors** 

The clients need the character in full colors and stylized version

So I draw the character with uncommon skin cyberpunk theme and add future stuff with sexy color and fresh vibes.

# Characters Design

Tornadogs

Tornadogs is cheeky character with cool variations living on OpenSea.

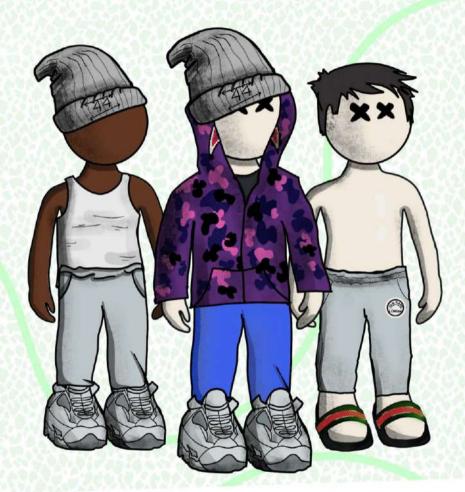

**Duration: 7 days** 

#### **Pictures of Collection**

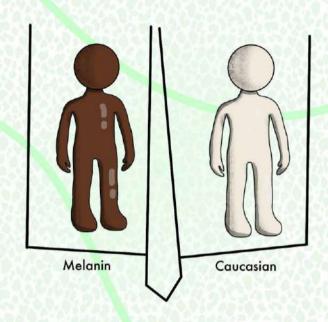

### 44GANG

44GANG NFTs is the first NFT Character bridging fashion, culture, outfit, around the world roaming on Solana blockchain. The Character will bring into 3D for owners.

I create this characters for my clients from England and he want idea with ballon man and add costum traits for the character and boom I made this coolest NFTs called "44GANG".

I made 2 character type, Melanin and Caucasian skins

My reference for making the characters

### General pictures description

Football style inspiration

Fashion style inspiration

# Domeleons (Doodle chameleons)

Made with Procreate

Domeleons is first unique chameleons with doodle art style character inspiration. Will bring you into colorful world with chameleons camouflage!

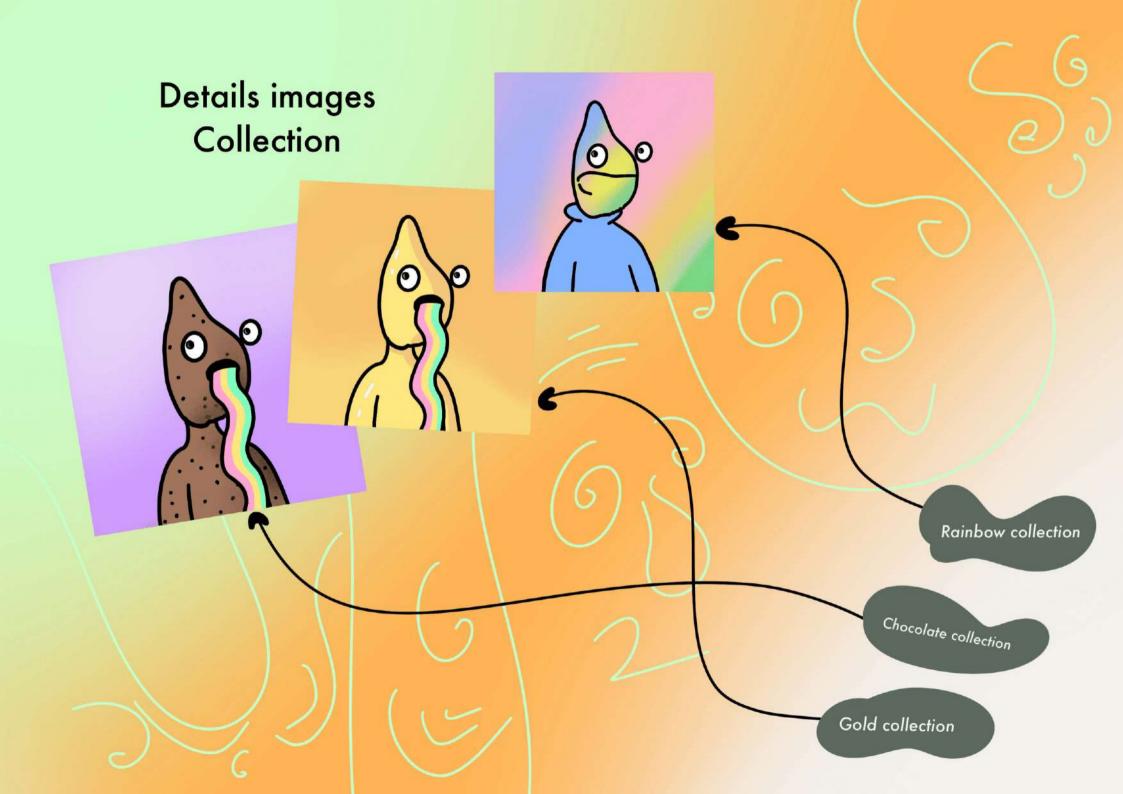

I made this character for my clients from Netherlands. He want to launch his first NFT project and he want something colorful and friendly character something like doodle NFTs inspiration.

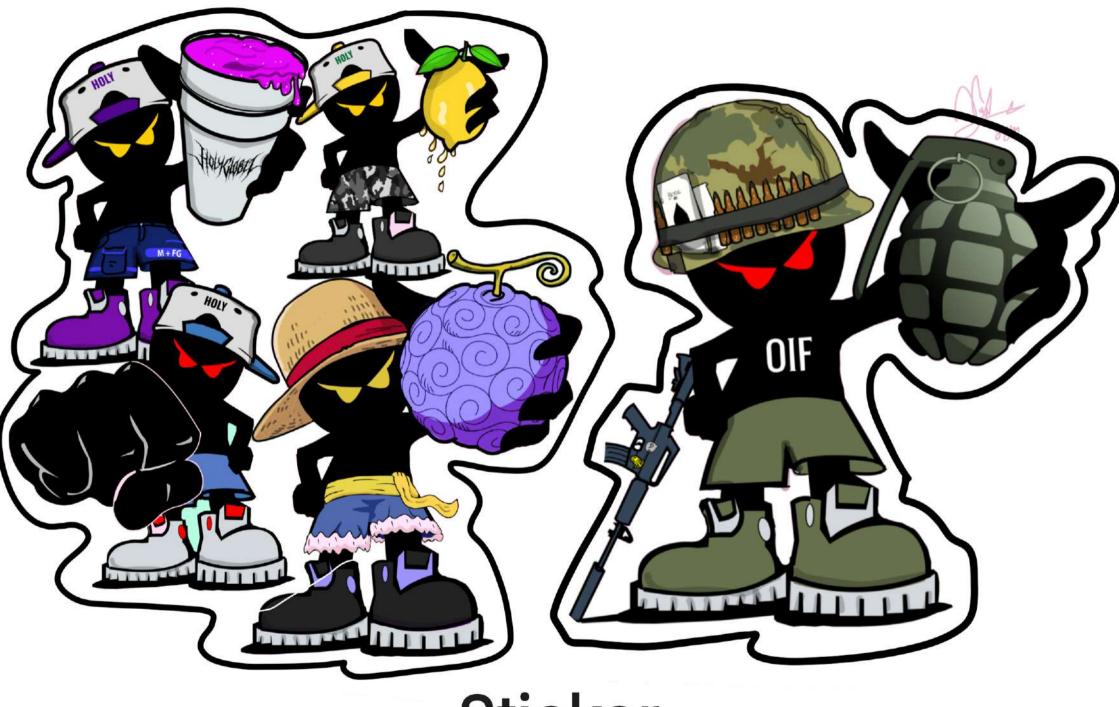

So I decided to choose chameleons for character because chameleons is unique nature animals, it can camouflage with differents color according to the situations. So I just like it and looks cool I think 9.

> You want to see how I turned it out?

> > So let's slide to the next!
